Class Mail" and seal it. Attach only one two-cent  
stamp; owner will pay all additional postage due when  
book reaches destination. Give name and address of  
sender on outside of package even when letter is  
enclosed.

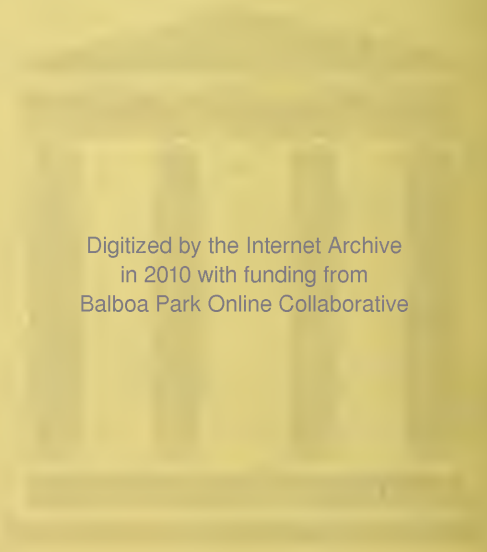

May 9, 1923

Collected 2 Diadophis  
amabilis similis on the road  
at Ballena grade west of  
Witch Creek, driving with Van  
Demburgh & Slevin. One of my  
earliest hunting trips. This was  
before I kept complete records

May 13, 1923

With Van Demburgh and Slevin  
on Mountain Springs grade.  
This was the day they discovered  
the method of collecting Xantusia  
henshawi and Phyllodactylus  
tuberculosis by using a pinch-  
bar to pry rock flakes off of  
granite boulders.

LEFAX FILING INDEX

Lemon Grove - Monte Vista -  
Dehesa - Frog Bridge - Back  
to Alpine Junction - Alpine -  
Rescanos via Viejas grade - Guatay  
Valley - Return via Viejas grade  
Alpine and Paved Highway.

1201-2 1 mile east of Rescanos  
on road to Milquatab Valley

Also saw at this point 1 *Xantusia*  
*henshawii* but could not catch.  
Got one rept but he dried up.

1203-4 Top of old Viejas - Rescanos  
grade  $\frac{1}{4}$  mile west of summit.  
Saw several more *X.h.* at this point

No snakes seen this day except  
one dead *C. lateralis* on Dehesa  
grade west of Alpine Junction.

July 6<sup>th</sup>

2

LEFAX FILING INDEX

Santa Ysabel via highway -  
Hunshaw Dam - Palomar -  
down west grade - Pala - Bursel  
Oceanside - home.

Took 1 *C. mitchellii* at top of  
Museum grade 4.7 mi from  
Ramona. No other snakes alive  
or dead seen this day.

1205 - 1 mile west of top of grade  
west of Ballera. ~~Approx~~ 1.6 mi  
west of Ballera.

1206-7 East Palomar grade about  
halfway bet Wendenbells and  
Hunshaw dam.

1208 West Palomar grade ~1 mi  
from top (west).

July 8<sup>th</sup>

Lakeside - Ramona - Julian - Cuyamaca  
- Descanso (old grade) - Alpine - home.

Took one poor specimen h.g. boylii  
2 1/2 mi east of Ramona

Took 1 *S. humilis* in creek in  
rock .6 mi from bottom of old  
Vegas grade.

Saw a garter in creek 1/2 mi w.  
of Julian also one crossing road  
just beyond Julian. Saw one dead  
gopher near Wignola.

1209-10-11-12 1.6 mi west  
of Wignola on Santa Ysabel Julian Road

1213-14-15-16 north end Cuyamaca Lake

1217-18-19-20 .8 mi east of Descanso  
on Milquintay road.

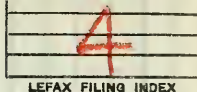

1221-2-3-4-5-6 .6 mi from  
bottom of old Vegas grade on Vegas-  
Descanso road.

Patch nosed snake # 1227

Date and place of collection unknown  
San Diego County.

July 14<sup>th</sup>

Wildwood Ranch

Saw Orcuttia and X.h. 2 each  
got 1 X.h. #1228

July 23<sup>d</sup>

Buckman Springs via old Vegas  
and back via new Vegas.

Tried for X.h. in Pine Valley  
negative.

At south end Buckman valley  
at 3200 ft saw X.h. and  
S. orcutti but got none.

got #1229 at this point

Settling day with rain.

Aug 19<sup>th</sup>

Pine Valley via old Vegas and  
back via new Vegas

got # 1231 X.h. at north  
of entrance. saw nothing else  
no snakes alive or dead.

LEFAX FILING INDEX

El Cajon, Lakeside, Wildwood, Ramona, Home. Start 10<sup>30</sup> back at 6<sup>30</sup> Family & Garty. 77 miles. A warm day but part cloudy. Plenty rain during previous week. Ground wet everywhere. Saw no snakes on road.

First stop about  $\frac{1}{2}$  way up mezzys. Grade elevation 950. Got 4 *Xantusia henshawi*, 1 frog, 1 *Batrachoseps attenuatus*. Saw 3 small skellys, ~ skelly orcutti (shot 1 but lost him). Lost about 4 X.b. and 1 frog. Stopped near Wildwood gate and ate lunch. Got one skelly orcutti (5605). Saw lizards probably Uta. Went on to Wildwood and hunted a short time on east side. Got 7 X.b. and one Bat. atten. but latter was smashed. Small one X.b. seem to be on south or east flanks as if to get warm sun. Many X.b. seem to be half grown. Possibly yearlings. Went on to Ramona turned around and came back. Stopped near top of grade and hunted on east side of road. Got 11 X.b. and one

yearling Calif. King. Found  
latter under granite flake while  
looking for X. h. was close to ground  
and some dirt in crack. Was coiled  
up.

Sunday April 13<sup>th</sup>

hemlock grove, Tamacha, Tamul,  
Cottonwood, Tecate & return.  
Family, Hugo & Jess. 88 miles.  
A cool day with high fog  
in town. Clear at Tecate.  
Hunted there only. Wet during  
previous week. Ground wet.  
Got 1a X. h. 1 uta (shot) 1 *Colelia*  
*lateralis* (shot). Saw several  
*Stellio* both o. b. and o. cuttie.  
Saw no other snakes on road  
or elsewhere but kids saw 1 unknown.  
Most X. h. are <sup>under</sup> on south flake  
but not all. *C. lateralis* was  
first seen in rocks and brush.  
Then discovered watching me  
with head out only. Had to  
shoot him or lose him.  
A good full grown specimen.

4  
FAX FILING INDEX

Sunday April 20<sup>th</sup> / 24

La Mesa, El Tagon, Alpine,  
Viejas, Old Viejas Grade, Descanso,  
Glen Lonely, Rehesa, Bostonia.  
Hillebrand, Bill Fay, Dind Phelps,  
9.1 miles. A fine clear day  
after 2 hot days. Not hot except  
in spots. Some wind in exposed  
places.

First stop about 1/4 way up  
Viejas grade at square concrete  
reservoir on south side of road.  
Elevation 2700. Got one fine *C. exsul*  
under rock (under shadow of rock,  
part in sun). Had evidently fed  
recently. Dind found one small  
*C. exsul* under a boulder, in a  
hollow. Was coiled up. Got 1 Uta  
#5633. Tried 1 other point on  
grade got nothings. Lost several  
X. h. Beyond Descanso at 48.7 mi  
(Call it Tapatul) got a large  
*P. c. annectens* in rocks. Dull in  
color. Little black. Also 1 Skelly, o. b.  
(larger & blacker of 2). At 50.6 (Call it  
Tapatul) got 1 small (yearling).  
*P. c. annectens* crossing the road.  
At top of hill above Glen Lonely  
(Tapatul School). 53.7 Got a  
fine large *C. exsul*. Was on the

move between two large  
boulders when first seen. Put up  
biggest kind of a fight. Coiled  
and was ready for fight before  
attacked with snake stick. Crawled  
under rock and was caught.  
Also got large *G. s. websteri* at  
this point. Found by Hille.  
Covered hill further down road  
but got nothing. At Glen barely  
school got smaller *G. s. websteri*;  
also did shot *S. o. kiseratus* (smaller  
+ lighter of 2). At 55.8 (Call it  
Glen barely) found a small squashed  
*Salvadora hexalepis* in road. Only  
dead snake seen in road of this day.  
Start 9<sup>30</sup> return 6<sup>30</sup>

$$55.8 + 39 = 95 \text{ Total}$$

LEFAX FILING INDEX

Encanto, Spring Valley (Helix),  
Grossmont, El Cajon, Bostonia,  
Dehesa, Glen Horely, Tapatub,  
Descanso, Old Vieja grade,  
Alpine, La Mesa. Family,  
Alley & I. Cloudy in town.  
Fairly clear in the foothills  
but not always so. Fairly cool.  
Some wind Total miles 88.  
Start 10<sup>15</sup> return 6<sup>30</sup>.

At the foot of the Bostonia  
Dehesa grade found 1 dead  
*C. lateralis* and a few feet  
further a dead *P. c. amnestens*.  
Miles 21.9. Call it Dehesa. Just  
after crossing to north side  
of creek in Dehesa - alpine  
Hts grade (miles 25.9). Saw  
a *C. lateralis* in the road but  
got away. First stop at 30.7  
A/c kids being car sick (Call  
it Glen Horely) Here got 1 X.h.  
and 2 *Crotalus eximius* fine  
large specimens. They were  
coiled (loosely) on east side  
of flat rock with light cover.  
Separated about two feet. 1 slightly  
larger than other. Watched them  
for some time while stuck and

آبشار و آبشار

در این کتاب، آبشار و آبشار را به روشی ساده و آسان توضیح داده است. این کتاب برای کسانی که می‌خواهند در مورد آبشار و آبشار بیشتر بدانند، بسیار مفید است. در این کتاب، آبشار و آبشار را به روشی ساده و آسان توضیح داده است. این کتاب برای کسانی که می‌خواهند در مورد آبشار و آبشار بیشتر بدانند، بسیار مفید است.

Boys were being brought up.  
 Didn't move. 1st one rattled when  
 hung but 2nd didn't move and  
 didn't rattle when hung. Also got  
 1 P.C. ~~gambusia~~ just in front of car in road.  
 Stopped at Glen Beverly for lunch.  
 Ranged all over rocks energetically.  
 Saw 1 C. lateralis but lost him.  
 No other snakes. Saw 1 horned toad.  
 Got 1 skelly. o.b. Saw several  
 orcuttis. Stopped again at top  
 of hille. Got another skelly o.b.  
 and saw orcuttis. No snakes.  
 Stopped a couple of miles  
 further in and hunted rocks  
 but got nothing. Saw no snakes  
 alive or dead in the way in.

## Sunday May 4

Kensington Park, Grantville, Mission  
 Gorge, Santee, Lakeside, Foster,  
 Wildwood. Return via Highway  
 Total mileage 63. Family + Gary.  
 High fog in town, clear and warm  
 in back country. Start 10<sup>20</sup> return  
 6<sup>30</sup>. 1 dead snake on highway at  
 Grantville - couldn't identify. Stopped  
 at Foster in large rocks at east of  
 highway and hunted diligently.  
 No snakes; got 1 X.h., 2 uta, 1 skelly.  
 Stopped at top of Messey grade  
 got 1 X.h. Stopped for lunch ahead of.

gate. Got nothing. Got to Foxwoods  
 about 2 P.M. Went up west mountain  
 grade with Jim, Woody and M.F.H.  
 got *Trimorphodon*? in crack of rock.  
 First seen by Woody when he lifted  
 rock which he dropped back.  
 Removed this and then removed  
 small adjacent rock. Found in  
 a crack alongside of small rock  
 Removed with forceps. Tried to bite.  
 Went on up mountain got 7 h.x.  
 Jim saw 1 *Collyer* racer. Description of  
 scutes on map. Jay saw long  
 black snake coming out. Black c.f. *princei*?  
 Cant enter. On the way back saw  
 1 dead snake near top of grade. Going  
 too fast couldn't stop to identify.  
 Probably garter or c. *lateralis*.

Monday May 5.

Kensington Park, Grantville, Mission  
 Gorge, Santee, Lakeside, Foster,  
 Wildwood, Ramona, San Pasqual  
 Bernardo, home. Total mileage 88.  
 Watson, Pratt, Bill Fay. Start 2 P.M.  
 Return 5<sup>45</sup> P.M. A fine clear day. at  
 Mission Dam caught a medium red  
 rattler. 1/4 way up Mussey grade  
 lost a banded racer. no doubt of  
 identification. Near San Pasqual  
 saw snake probably garter but

identification not certain.

At 1 mi south of Bernardo found  
a dead red rattler. At 2 mi north  
of Parray lost a C. talpacoti.  
Wildwood elevation 1520.

Sunday May 11

Encanto Spring Valley,  
Tamil, Dulzura, Campo,  
Jacumba and return.

150 miles. Bud Phelps and  
Hopkins. Start 9<sup>00</sup> Return  
7<sup>15</sup> A fine clear day in the  
back country. Cloudy in town.

Got 1 lampyris-like boylii  
crossing the road at 25.1

Tamil. 1 dead boylii along  
side the road at 30.1 Dulzura.

lost 1 live coluber lateralis  
at 30.5. Dulzura = 30.6.

Caught large ex. scul at  
Dulzura summit 32.6 Call  
it Dulzura. Also at this

point got 2 whiptails 1 orcutti  
1 biserialis and several (5).

X.c. Hunted here a considerable  
time also 1/4 mile further  
along. 1 dead pacific rattler  
by the side of the road at  
33.2. Call it Dulzura.

stopped for lunch near  
 Potrero. Hunted here but got  
 nothing. Also nothing between  
 here and Tacumbla. About  
 1 mile west of Tacumbla on  
 return trip hunted in rocks  
 north side of road. Got a  
 fine large *C. mitchellii*. Also  
 a number of *X. h(9)*. Hunted  
 here quite a while. 1 Juvenile  
 gopher dead 4.2 miles west  
 of Tacumbla. Call it Boulevard.  
 1 Juvenile *C. oregonus* smashed  
 in road 4.9 miles west of  
 Tacumbla. Call it Boulevard.  
 1 mile west of Camp. 1 *C. lateralis*  
 smashed in road. Call it Campo.  
 Nothing between here and home  
 except a blow ant.

Sunday May 18

La Mesa, Grossmont, El Cajon,  
 Alpine, Los Termitos, Pine Valley,  
 Buckman, Boulevard, Tacumbla,  
 Campo, Potrero, Dulzura, Home.  
 151 miles. Start 9<sup>40</sup> Home 6<sup>30</sup>  
 Family, beet and steel. A  
 clear day but rather warm.  
 Had been too warm for  
 several days and reported

Very hot in San Joaquin Valley.  
This may have had something  
to do with poor results.

Anyway only saw 1 live  
snake all day this on  
Potrero grade about 1/2 way up.

Probably was small gopher  
but couldn't catch or identify.  
First stop at about 10 mi west  
of Boulevard on the highway.

Hunted in fire rocks but got  
nothing. Saw orcutti's. Stopped  
for lunch at Boulevard. Hunted  
long time in hills to north.

Got 1 x.h. saw no snakes.

Saw orcutti's and other lizards.

Saw following dead snakes.

- 1 C. lateralis at Boulevard
- 1 Juv. C. oreganus at Boulevard.
- 1 R. beantei at Hye's (brought  
in for identification).

1 Snake too far gone to identify  
about 6 mi east of Campo.

1 Small unidentified (didn't stop)  
at Campo.

1 Twinkie Gopher on Potrero grade.

1 Boa about half way up  
Cottonwood grade.

1 large ~~the~~ Gopher at Tulzuma.

Tuesday May 20<sup>th</sup>

Old Town, Muráman, Escondido,  
Valley Center. Lunch at Camp 2,  
Sylvano, Bear Valley Dam,  
Escondido, home. Start 9<sup>40</sup>,  
back. 2<sup>40</sup> 104 miles. With  
Pekham, Watson, Ayres. No  
hunting only riding. A clear  
not overly warm day. Rather  
warm in Valley Center. Saw  
no live snakes.

Checked the following dead  
1 at about 8. Didn't stop.  
1 Twaniles Gopher at 11.8. Call  
it Rosedale.

1 long nose at 12.8 Call it Rosedale  
1 Boyles King' at 22.0. (Poway).  
1 gopher at 27.5 (Bernardo).  
52 miles at Camp.

1 C. oregonus at 85.8 (Muráman).  
1 Calif Racer at 92.1 (Rosedale).  
1 ? at 98.0. Couldn't identify  
too badly smashed.

1 gopher at 98.7. (Old Town).  
Call it Mission Valley.

Sunday May 25<sup>th</sup>

Encanto, Spring Valley, Tamul,  
Lawson Valley, Barrett, Cottonwood,  
Dulzura Summit, Back to Cottonwood  
for lost pick, Dulzura Summit,  
Tamul, home. 87 miles. Start  
11 AM, back 6 P.M. Family & garty.  
High fog in town, clear in  
back country.

- 1 dead L.g. boylii at Encanto 7.4 mi
- 1 do at Tamacha 16
- 1 live P.c. annexens large at  
Cottonwood.
- 1 live S.g. boylii Dulzura summit.
- 1 live Salvadora hexalepis at  
Dulzura summit lost.
- 1 live L. roseofusca at  
Dulzura summit.
- 1 dead (half). gopher at  
Dulzura. saved specimen.

Also 1 Uerticaria and 2 X.h.  
at Cottonwood and 1 X.h.  
at Dulzura summit.

Box was found in crack in rock

Friday May 30<sup>th</sup>

San Diego, Ramona, Witch Creek,  
Santa Isabel, Warners,  
Oak Grove (side trip in the evening)  
back to Warners for the night.

104 miles. A clear warm day.  
Started at 11<sup>45</sup>, reached Warners  
at 4 P.M.

Caught 1 Yellow phase Red  
Racer just north of El Cajon  
at road side.

1 dead Gopher at Mussey  
1 *C. lateralis* (escaped) just  
beyond Ramona. Took lunch and  
hunted here by the roadside but  
got nothing.

1 dead Two Gopher at 41  
Call it Ramona.

1 dead Two *C. oreganus* at 45  
Call it Ramona.

79 at Warners.

Hunted by roadside south of  
Oak Grove but got nothing.  
Rocks seem too soft for X. h.

My dear Mr. Garrison

I have just received your letter of the 10th inst.

and am glad to hear that you are still

interested in the cause of the colored people.

I have been thinking much lately of the

many good people who are doing so much for

the cause of the colored people.

I am sure that you will be able to do much

for the cause of the colored people.

I am sure that you will be able to do much

for the cause of the colored people.

I am sure that you will be able to do much

for the cause of the colored people.

I am sure that you will be able to do much

Saturday May 31<sup>st</sup>

a clear warm day. Started from Warner at 8 A.M. returned at 5 P.M. 105 miles.

Went to Yaqui Well via Grapevine Cañon back to Warner (not Agua Caliente) via Sentencia Cañon and San Felipe. thence to Pine Hills to Cuyamaca, back by Julian, Santa Ysabel to Hot Springs.

Got 1 X.h. in Grapevine Cañon at 10 mi and 1 X.h. at 13.

Tried various other points but got nothing - particularly base of Sentencia and Yaqui.

Found dead *Phyllorhynchus decurtatus* in San Felipe not far from top of Sentencia Cañon grade. Alt 2420.

Got a live C.C. Mammal crossing the road at Cuyamaca just north of dam. Dead gopher on road between Santa Ysabel and Warner. Call it S.Y.

Sunday June 1

A clear hot day. Warners, Palomar, Pala, Red Mountain (by first road). County line, Fallbrook. Home by highway.

128 miles. Start 8<sup>30</sup> A.M. home by 3<sup>45</sup> P.M. Saw no live snakes.

1 dead gopher west of Pala, call it Pala

1 dead gopher north of Fallbrook, call it Fallbrook.

1 dead Baylii just before getting to Bonsall.

1 dead snake near Bernardo, didn't stop.

1 dead gopher at Murrieta.

1 honeycreeper at top of Mission Valley Grade.

1 Cal King at top of Mission Valley Grade.

Sunday June 8

A fine clear cool day - high fog in town.

1925

TELEFAX FILING INDEX

Friday Jan 2<sup>nd</sup> 1925  
a clear warm day. L.A. to  
S.D. 1 Dead garter in road  
at San Onofre bridge. 64 mi.

Saturday Jan 30<sup>th</sup> 1925  
A clear cool day. L.A. to  
S.D. with Rubens. Saw nothing.  
64 mi.

Friday Feb 27 1925  
A clear warm day like  
summer after several warm  
days. Went to Hillsdale via  
Tamacha and returned via  
El Cajon. With Peckham  
2 to 4 P.M. Saw nothing on  
the road. Stopped at a pile of rocks  
near Hillsdale school. Saw  
1 *Crotalus eximius* which was lost  
for lack of catching equipment.  
Was a yearling about 2 1/2 ft long  
seemed to have three rattles.  
Was thin and rather torpid.  
Didn't try to bite but finally got  
away quietly enough. Also  
saw some skellies one looked  
like an *orcuttii* and 1 *xanthus*  
*henshawi*. 31 mi.

2  
TELEFAX FILING INDEX

Saturday Feb 28/25

Oceanside, San Luis Rey, Escondido  
with family & Mrs. Wilcox.

Start 13° - Home 6<sup>15</sup> 107 miles

6 fine warm day.

Hunted only a Vista rocky hill  
There got 3 skellies and 1 Uta.

Saw several more 1 probably  
an orectic. Saw no Xantusia.

LEFAX FILING INDEX

Saturday Mar 14 / 25

To Point Home and Back.  
A clear warm day. Saw nothing  
except 1 dead gerrhonotus. 10 miles  
Afternoon.

Sunday March 15<sup>th</sup> / 25

With Philip. Start 9 A.M. Return  
5 P.M. A clear warm dry day.  
The third warm day. Rain about  
a week ago. Encanto, Spring  
Valley, Samuel, Dulzura,  
Cottonwood, Barnett, Lyons  
Valley, Samuel, Home. 85 miles.  
4 dead snakes. No live snakes seen.

1 Juvenile Pituophis at 6.6 mi.

(alta Vista) Encanto.

1 Juvenile Pituophis at 20.4 west  
of Samuel

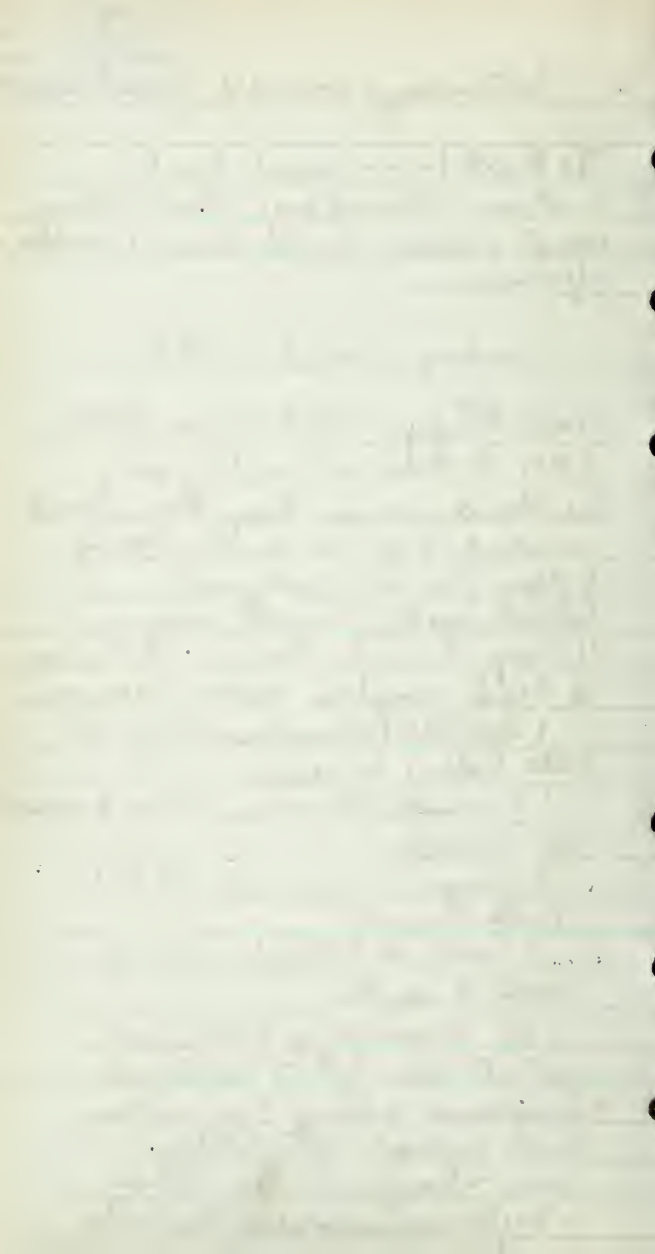

1 large *C. oregonus* at 61.6  
north Samuel

1 Juvenile Pituophis at 75  
north Encanto.

1<sup>st</sup> stop west of Dulzura  
at alt 880. Got 7 *Xantusia*  
*henshawi* 4 large 3 juveniles.  
lost several. Got 1 Skelly.

Saw 2 large *vicuttii*. Also

1 *Hyla arenicolor* in the rocks.

Next stop. Top of hill beyond  
 Dulzura. Hunted in rocks a long  
 time. Got nothing except 1 Skelly.  
 Ate lunch about half way down  
 the grade. About 2 mi north  
 of Cottonwood stopped at  
 pond and got a couple of dozen  
 Hylas both regilla and  
 arenicolor. Plenty polywogs.  
 also got 1 Uta here. Stopped  
 twice on way back but got  
 nothing but one uta about hyme  
 valley.

Tuesday March 17

Philip found a juvenile  
 Pituophis dead on street.

Wednesday Mar 18<sup>th</sup>

Noted to day at the Zoo a  
 Pituophis which would lie  
 on its back and play dead.

Saturday March 21<sup>st</sup> 1975  
 Went out with Philip for a short  
 ride after lunch. Warm but part  
 cloudy day. 5 miles (in snake  
 possible territory). To foot of 6<sup>th</sup>  
 St grade, east in Mission Valley

return by way of  
 Fairmont Grade. 1 Horned Toad  
 near foot of 6th St. Grade. 1 dead  
 Boa foot of Fairmont Grade  
 across the river from the Mission.  
 Call it Grantville. 1 live Thamnophis  
 near top of Grade. Small. Call it  
 San Diego.

Sunday March 22<sup>nd</sup> 25

High clouds in town. Mostly  
 clear in the back country.

Moderately warm. To Descanso  
 and back. Encanto, Spring Valley  
 Grossmont, Old Viejas Grade. Returned  
 via Grossmont and La Mesa. Total  
 miles 90. Start at 9<sup>55</sup> Return  
 at 6<sup>15</sup>. Family, Allen, Allie.  
 No dead snakes seen on the  
 road.

First stop at alpine just west  
 of hotel. Got 2 small X. h. 1 Uta,  
 1 Skelly. Next stop on old Viejas  
 Grade at Altitude 2870 (a short  
 distance from bottom) Got 2 Utas.  
 Saw several orcuttias. Got one  
 large C. mitchelli of average  
 brown color. Was resting in  
 cleft of rock with head out. Near  
 top of grade got one large

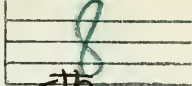

hchainua. Was climbing up  
bank at side of road. Stopped  
for lunch about one mile beyond  
top of grade. at alt 3730. Got one  
large *Thamnophis* in a brush while  
eating lunch. Came back with  
Allen to a point west of top of grade  
at alt. 3740. Hunted here diligently.  
Got 2 skellys, 3 utas, & x.h. lost  
several x.h. Saw several orcutts.  
Shot one *C. lateralis*. First caught  
him by the tail and was promptly  
bitten. Dropped him. He shot into  
upper branches of manzanita. and  
escaped by aerial route. Looked  
for a while and finally spotted  
him in branches about 3 ft above  
ground. Took no chances and shot  
him as I wished to see what he had  
eaten. (Quite an evident lump). Opened  
him after got home and found  
1 large skink and 1 large skelly.  
Both eaten head first. Found a large  
*Hypsiglena* under a rock while  
looking for x.h. Was under a  
good sized chunk rather than a flake.  
On the way in while in a sack  
this snake ate a small x.h.  
Hunted further down but got nothing.  
While picking lilacs near Willons saw  
a small snake or skink. Too fast to  
tell.

Wednesday March 20th

To Jacumba via Alpine etc.  
Back via Campo. Total miles 159.  
A warm day, little wind  
some clouds. Not hot. With  
Hugo, Allan and Reg. Rood.  
Start 9<sup>30</sup> back at 6<sup>30</sup>.

First stop at 59 mi. (about  
2 mi.) west of La Posta) Alt 3250.  
Got 1 live *C. lateralis*, 1 dead *Pituophis*  
(juv) in the road. Allan caught the  
snake. Also 2 *Uta*s, 2 *Skellys* and  
1 large *X. h.*

Next stop at La Posta 59 mi.  
alt 3270 Got 1 *Hyla*, 1 *Thamnophis*.  
Same was in bed of creek with  
only head out. Snake was full grown.

At 60 mi. (Call it La Posta)  
1 large dead *Pituophis* in the  
road.

Stopped for lunch at 63 mi  
alt 3780. Rood saw 1 *C. lateralis*  
in rocks but lost him. Got 2 *Uta*s  
and 1 large *X. h.* Call it La Posta

At 64.3 alt 3880 1 juv *C.*

*Oreganus* dead in the road. Call it  
La Posta.

Jacumba = 78.9.

On return stopped at 80.5  
(call it Jacumba) alt 3080. Got  
1 small spotted night snake. Was

discovered by overturning a large rock resting on the ground. Snake was in a small hollow. Also at this point got a small X. h. and 1 Uta.

1 Small Pituophis dead in the road at 84.9 Alt 3280.

Road Branches at 87.7.

1 Small C. mitchelli dead in the road at 92.0 Alt 3380.

1 Small Pituophis dead in the road at 92.7 Alt 3330. High bridge on RR just ahead.

1 Small Pituophis dead in the road at 101 Alt 2580 just east of Campo. Saved this specimen.

1 Small Pituophis dead in the road at 101.7 Campo.

1 Medium Pituophis dead in the road at Cottonwood grade 114.6 Alt 1780 Saved this specimen.

Monday - Wednesday  
April 20 - 22 incl

Heavy rain 1 to 3 in. throughout  
the county. Considerable snow  
in the mountains and as  
far down as alpine. Cold  
and windy.

Friday April 24th  
First clear day after the  
storm. Went to Gregg's ranch  
at Foster and back with  
Weiss. Start at 9<sup>30</sup> AM. back  
at 12<sup>30</sup>. Saw nothing dead  
or alive. 54 mi.

Saturday April 25th  
A fine clear warm day. Went  
out on a snow hunt rather  
than reptile hunt taking the  
kids, Garty and L. Masten. Ramona,  
Julian, Cuyamaca, Descanso, Old  
Vieja's grade, Home. 130 mi.  
Start at 12<sup>30</sup>. Back at 6<sup>15</sup>.  
Saw only one snake. a live  
*G. lateralis* 3.9 mi west of  
Ramona. Lost him in the grass  
along side of road. No brush.  
Got one skelly under a log,  
partly hibernating, at Cuyamaca.  
He quickly warmed up and  
became lively. Got one small skelly  
at old reservoir on Vieja's grade.  
This was the only place where  
we hunted except where there was

snow.

### Mileage record.

April 26<sup>th</sup> Sunday

A fine clear warm day. Family Ed and Stell. 123 miles. Start at 10 AM Return at 6<sup>15</sup>. Esccondido via Murphy Canyon. Thence to San Pasqual, Ramona, Sutherland, Ballena (72 mi) Ramona, Lakeside, El Cajon, Grossmont, Spring Valley, Encanto, Hope.

Judging by lack of specimens seen, the rains of last week must have set the season back.

1 live C. *o'gami* caught while crossing the road just north of Ramona. About 4 rattles.

Dead snakes; three.

1 Juv. *n. c. californicus* (saved for specimen) north of Ramona.

1 *C. lateralis* large dead in the road west of Ramona near rail school.

1 *Pituophis* juv. dead in the road at Panties.

The country between Ramona and Sutherland looks especially

Good.

First stop at small rock pile  
between Esccondido and San Pasqual.  
Got 1 Skelly. Next stop San Pasqual  
battle field. 1 Urticaria. Hunted in  
rocks and cactus quite a while.  
Next stop Clivings grade near top  
for lunch. Hunted in rocks and  
brush south of road for about an hour.  
Worked hard. Got 3 Skellies, 1 Urt.  
Next 1 X.h. This was last stop.

Tuesday April 28<sup>th</sup>

A cold cloudy day. To  
La Jolla via Pacific Beach,  
Return via Sunset Cliffs. Saw  
nothing alive or dead. Start  
9<sup>30</sup> AM Return 11<sup>30</sup>. Alone  
35 miles.

Saturday and Sunday  
May 2<sup>nd</sup> & 3<sup>rd</sup>

Trip to the desert and return  
with Peckham, Weiss, R. Kelly, Cyo,  
Bellmann, Savage & Cook.

In San Diego this was the second  
of two clear moderately warm days  
which had been preceded by continuously  
cold cloudy weather.

Went out via Adams ave &  
La Mesa cut off.

Cloudy in town at start.  
Fog cleared at El Cajon.  
Stopped for gas at Lakeside.  
Started at 9<sup>15</sup> AM Saturday.

No live snakes seen on the entire trip. Dead snakes as follows.

Mussey	137.8	
Home.	165.4	(745 P.M.)

Total miles in County = 165.4 + 23.2 + 42.0? = 230.6

This trip taken too late in the season. Temp. of 104-106 in area east of narrows precludes possibility of taking snakes. Few birds or mammals seen. Few lizards. In fact all life seems scarce even in early morning. Some areas sandy others rocky. Toward Imperial country much salt.

\* Correction probably -150

The country around the windmill is as typically desert as any of Imperial County. Silt with scattered hummocks covered with mesquite. Many holes in hummocks where animals take refuge. The S.S.Co. switch is about 20 poles east of the edge of the real desert.

For lizard record and locations see specimen record.

Saturday May 9<sup>th</sup>

A cold cloudy day threatening rain. Went to Dulzura summit alone in max. Started 7<sup>40</sup> went via Encanto. Returned to Upper Otay Lodge via road around the south side of Lower Otay Dam. Very rough. Supper at lodge. Return to S.D. at night 10<sup>40</sup>. Total miles 79.5.

Hunted hard at Dulzura summit. Got 12 X.h. and 1 skelly. Saw no snakes on trip dead or alive. Too cold.

Sunday May 10<sup>th</sup>.

Another cold cloudy day with occasional short spells of sunshine. Almost cold enough for overcoats.

With kids, Gail and Jane. Started 9<sup>40</sup> return at 5<sup>50</sup>. Total miles 99.1

Route. hwy road via Encanto 23  
Spring Valley, Tamacha, Pulzura  
Glen Honey, Descanso, to  
Woolin Grove. Return via old  
Vegas grade and Highway.

Stopped first at top of Glen  
honey grade. Got nothing. Too  
windy. Next stop old adobe  
house south of Descanso. Hunted  
here a long time. Got 5 x.h.  
1 skink, 1 young *vicitti* (saw  
several) and 1 *c. lateralis*.  
Chased the latter under a  
rock and caught his tail  
under it when overturned the  
rock. He twisted laterally and  
twisted tip of tail practically  
off.

Went to Woolin Grove where  
we lunched. Hunted strenuously  
in rocks north of grove but there  
were few flakes. Got only 1 x.h.  
saw some skelly *vicittis*. While  
I was away the kids caught a large  
gopher.  
Mileage record.

LEFAX FILING INDEX

Alone. Sunny day when started.  
But got cold and cloudy when  
reached Glen honey and remained  
so during the remainder of the trip.  
Total miles 92.5. Start 11<sup>45</sup>. Return  
at 4 P.M.

To El Cajon then along south  
side of Valley turn south  
to Jamacha Dehesa, Glen honey,  
Japotel, Adobe House (only stop  
to hunt). Researco, back by  
new grade, Grossmont and  
return by lower road.

No live snakes seen.

1 Whiptail shot at Adobe house.

Read 2 snakes.

1 med garter Territtos Bridge 50.1

1 large red racer dead on highway  
at El Cajon near center of town.  
75.9.

1 small pituophis dying on the  
road at Cemetery.

1 Box at Cottonwood by HK.

Sunday May 10<sup>th</sup> on return trip

Saturday May 16<sup>th</sup>

Birth Hugo. A perfect day.  
Gear not too hot. Start 2 P.M.  
Return 6<sup>30</sup> P.M.

To Mission Valley via 6<sup>th</sup> St Grade,  
thence to La Jolla via Pac. Beach.  
to City Farm via Canon Road, Miramar,  
Poway, Earl School, Lakeside, Port  
Bostwick road, Pepper Drive & home.  
Total miles 88.7.

Stopped at only 2 points  
for a few minutes only.  
One at top of Poway - Earl grade,  
the other at Muessey (1/2 way down).  
at former got 1 X.h. got a  
horned toad at Poway.

Dead snakes

- 1 Gopher large Mission Valley 8.5  
dead on highway.
- 1 Pacific Rattlesnake 37.2 at top of  
Poway grade. dead on highway
- 1 Boyles' Sn. large dying on  
highway top of Muessey grade  
(saved 1 specimen).
- 1 Gopher large at Foster. dead  
on highway.

Sunday May 17<sup>th</sup> 1925

A fine clear day not too warm.  
Family + Goulds except E.B. Tr.  
Started at 10 AM. Back at 6<sup>30</sup>  
PM. 97.6 mi. Went to Ellis  
Ranch via Fairmont grade, Mission  
Gorge, Santee, Lakeside, Lakeview,  
Alpine, Old Vegas grade, then  
to Lake ruin south of Terrinitos  
where we lunched. Hunted  
diligently in the rocks both before  
& after lunch. Home via Glen Helen,  
Dehesa, Tamacha Spring Valley,  
Lemon Grove, Encanto.

- 1 Red Racer large dead in the  
road at Flynn Springs.
- 1 Banded Racer crossing the  
road. Got away at Vegas.
- 1 Banded Racer under a tree  
where we stopped to eat. Lost  
him.

1 Banded racer largely  
dead in the road at  
Chollas Valley (City)

Got a few lizards where we  
lunched (see specimen list)  
and 1 live gerrhonotus at  
Tamaacha.

A rotten day which should  
have been good as the weather  
was ideal and at the peak  
of the season.

From Sunday May 17 to Sunday  
May 24<sup>th</sup> ~~is~~ nursing road  
lover.

Sunday May 24<sup>th</sup>

A fine clear cool day. Not  
too hot for snakes

With Mts and family to  
Mesa Grande via Black Canyon.  
Return via Santa Ysabel, Sutherland  
Ramona, Lakeside El Cajon,  
Grossmont, La Mesa, Wireless.  
Start 11 AM Return 6<sup>15</sup> P.M.  
Total miles 120.9.

After lunch walked down  
past the tennis courts at  
Mesa Grande and got one juvenile  
C. hexaneus. Found him under  
an old dead log which I  
overturned. Only live snake  
seen on the trip. Dead snakes as  
follows:

May 91.4	1 Pituophis juvenile at mesa grande
ster 94.4	1 C. lateralis mussey grade 90.3 large
	do Foster 93.4 "
	1 Pituophis (imp) " "
	Mesa Grande 56.8

Wednesday May 27

A fine clear day. Cool in town. Warm at Dulzura; quite warm at Campo and beyond.

Went to end of pavement at top of Mountain Springs grade via Campo. Returned via Highway to Grossmont and home via Spring Valley. Went alone. Total miles 175.5. Did no hunting off road. Saw no snakes alive. Got 2 horned toads. #2 near White Eagle Garage.

### Distance Table

Patch Nose	med.	139.9 (alpine)
Gopher	med	Bostonia 152.9

Friday May 29<sup>th</sup>

Started for Mesa Grande at 4<sup>30</sup> P.M. with family. Went via Rutherford and Santa Isabel. Rather cool afternoon.

- 1 Red Racer (large) beyond lakeside 23.7
- 1 Gopher (juv) do 24.0
- 1 Gopher (med) 1.1 mi. beyond Foster
- Total miles at Mesa Grande 63.1

Saturday May 30<sup>th</sup>

Started from Mesa Grande at 8<sup>30</sup>. Rather cold and cloudy. Julian at 9<sup>10</sup>. Stopped for gas. Hunted a few moments at bottom of Banner grade but found nothing. Quite windy in San Felipe Valley. Hunted at bottom of Sentencia Cañon where San Felipe Creek goes into sand. Plenty pollywogs here but got only one small frog. Stopped a few moments only at Yagui well also at the narrows. Saw few lizards than last time. Very windy here; warm but not hot. Went on Borega road 2 mi beyond narrows. Cool but very windy. Hunted here a few minutes. On return got 1 Uta S. elegans. 1/2 way between narrows and Yagui well. Stopped at bridge 1/2 way up Sentencia. Saw one Rana aurora draytonii. Got 1 Uta meansii. Went up San Felipe Road to Warner's road thence east to Ureaga P.O. and about 2 mi beyond. Hunted a short time here but got

nothing. Got 1 horned toad  
in the road. Returned  
via Warner's road. Got  
1 large gopher crossing the road  
near old stage station at 4 P.M.  
Thence to Mesa Grande went along  
the Mesa Grande road to school  
house. Thence returned to Pavan  
hodge. at 5 P.M. A rotten day  
considering distance travelled.  
Very windy in Veruga valley.  
Miles for the day 109.1 for the trip 172.2.

Sunday May 31<sup>st</sup>

Started from Pavan hodge at 8<sup>30</sup>.  
A cold windy morning with high  
fog. Got to Tulecin at 9<sup>10</sup> and  
stopped for gas. Went down  
Banner grade with the intention  
of going south in San Felipe valley  
along old stage road toward  
Carizzo but after going along this  
road for about 1 1/2 mi turned  
back north toward Warner's on  
account of gale blowing from N.W.  
was raising quite a bit of sand.  
Caught one large gopher just  
after passing San Felipe camp.  
was crossing the road. 10 A.M. A  
little further north saw a large c.  
fatales. Wounded him but lost  
him in bush. Went to Warner's  
road. Hunted a short time in  
hill to W. of road. Saw Skellies  
and Whiptails but did not get  
any. Returned to Pavan hodge at  
12 M. miles in morning 64.1 for trip 236.3  
Started home from Pavan  
via Warner's Dam, Rencor, Pala

and Escondido at 2 P.M.

still cold and windy.

Stopped only once along the way about 15 minutes at Rincon. Got a skelly here and a Verticaria. Saw a whiptail. Reached home at 6<sup>30</sup> in light rain. Grand Total miles 345.8

### Dead Snakes

- 1 med Gopher at Amago.
- 1 Boyles King large. New Bridge
- 1 honey hose large across San Luis Ry.

✓ Sick with intestinal flu during the week. No pep.

### Saturday June 6

Went to Monument 298 via National City thence to Tia Juana, Thence via San Ysidro to Otay Mesa (Poma Alta district) thence home via Chester Grade.

Alone. A clear warm day but not hot. Miles 57.8. Only one snake seen.

1 Gopher large dead on highway at National City Start 3 P.M. return 6<sup>10</sup> P.M.

### Sunday June 7

Went to Top of Mt Springs Grade via Dulzura Highway and Tecate. Home by Highway with family and Miss Corbett.

Start at 10 A.M. Return at 7 P.M. A fine clear day warm but not too hot. Total miles 174.5

Only stop was at

30

LEFAX FILING INDEX

31  
LEAF FILING INDEX

Tecate where we stopped  
for lunch & hours. Hunted  
in the rocks for a while but not  
much pep so most of day  
spent in travelling. At Tecate  
got 2 X.h., 1 young *ocuttii*,  
*Uta*, 1 *Verticaria*.  
Snakes as follows.

- 1 large gopher dead in road at  
Encanto. 7.2 mi
- 1 med gopher dead in road at  
Jandecha (19.2).
- 1 large Boa dead in road near  
Top of Bulzuni Summit 34.9.
- 1 large Boyles King dead in road  
at Tecate 46.8.
- 1 Small Banded Racer caught  
in crack of rock at Tecate  
47.0
- 1 large Banded Racer dead in  
road at S.S.O. Campo.
- 1 med. gopher caught crossing  
road at Hypass 70.0

\* live specimens.

Sunday June 14<sup>th</sup>  
A clear fairly cool day. Went to  
Garbage Lake with Phil + Gutz.  
9:30 A.M. - 12:15 P.M. 37 mi.

- 1 C. <sup>large</sup>lateralis dead in road at Rose Canyon  
" mi.
  - 1 L.g. boylii med dead in road at  
head of Rose Canyon near city farm.
  - 2 T.O. hammondi large at Garbage Lake
- \* live specimens in Zoo list.

Sunday afternoon June 14<sup>th</sup> to Monday June 21<sup>st</sup> at S.F. at NELA convention and on side trip with Chickering.

Sunday June 28<sup>th</sup>.

A cool cloudy day with considerable rain especially between S.P. and Alpine. Somewhat oppressive at times.

Went to Cuyamaca Lake with Phil and Garty. Picked up Allen at Willows. Went via old Vieja Grade and returned same way. Made a side trip from Descanso south to old adobe house.

Start at 9<sup>45</sup> back at 6<sup>15</sup>.

Total miles 122.

Hunted in rocks near top of old Vieja grade and got 1 skelly and 1 orcutti. Ate lunch beyond top of grade. Hunted along south side of lake Cuyamaca. Also hunted for a short time around adobe house but it was raining at the time. On the way back stopped at the square reservoir and hunted but got only 1 Uta.

Snake list.

(live snakes marked \* are in zoo list).

\* 1 Fine large Boylii under a bush above road near top of Old Vieja Grade.

\* 1 large Gopher (located by track) alongside of road just before reaching Descanso.

- 1 Juv large gopher along side of road at Berkey's store. Located by track. Was found in mesquite bush about 1 ft above ground. Along a branch.
- 1 Juv Calif King found dead alongside of road at this point. Saved for specimen.
- \* 1 Juv gopher at Bridge near Termitos.
- 1 Pacific Rattlesnake large. Dead in road east side of Water Valley.
- 2 Garters dead along lake shore at Cuyamaca. Not along road.
- \* 1 Live garter at this point. Caught in grass.
- 1 Snake indistinguishable dead in road 1 mi south of lake.
- \* 1 Med. Patch nose caught in road about  $\frac{1}{2}$  way down old Vrejar grade.

Saturday June 27<sup>th</sup>

- 1 L. lateralis in the park. Got away but had hand on it.

Wednesday July 1

A cloudy rather muggy day. Went to Point home then to her Tolls with Smith & Public Service Gas. Start at 10<sup>30</sup> A.M. Return at 1<sup>15</sup>. One dead. *C. lateralis* large. at junction of OB and main roads just w. of Theo. Seminary.

Sunday July 5<sup>th</sup>

A fine clear day not uncomfortably warm west of the mountains. A trifle hot on the other side.

To Tucumba and back. via alpine and the old Viejas grade. Total miles 160.3. Start Post back at 6<sup>30</sup>. With family Allie & Allen.

No snakes seen on the highway dead or alive. No tracks.

Stopped for lunch halfway bet. La Posta and Blvd and hunted here about an hour at noon. Got 1 Uta, 1 Orcuttia, 3 skellies, lost an X.h. Under a flat rock about 15" in diameter resting on earth found 3 good sized *G. oryzae*. They were in shallow hollows. All started to escape at once without rattling. Held one down with stick, another stopped in first bush but the third got away. Stopped at two places on the way home near Tucumba and on Viejas grade to let snakes cool but got nothing.

35  
LEFAX FILING INDEX

An average hot day for this time of year. Uncomfortably hot in the back country. Clear all day and muggy on the coast.

Went to Dulzura, Barnett, Jamul, Jamacha, Sweetwater Dam, Sunnyside, Bonita, Nat. City. Total miles 89.6. Start 9:45 Return 5:30. No snakes seen alive or dead along the road <sup>except</sup> ~~only~~ tracks. First stop at top of Dulzura grade. Hunted hard for over an hour. No snakes seen. Got 1 X.h. (lost 1) and 1 half grown skink. Noted that X.h. were not under flakes but rather under large chunks. Next stop at old bridge (washed out) bet. Nyona Valley & Barnett. Heard Barnett. Got 3 T.o. hammondi; saw 2 dead in creek and lost 1. Boys saw others (3?) which they lost. Got 1 skelly and 1 hyle arenicolor. Boys got several hyles which they placed in bag with snakes but they ate them.

1 large dead h.c. Californiae dead on the road at Sunnyside.  
With Phil, Allen, Gaitz, Hugh Skilling.

Sunday Aug 9<sup>th</sup>

To County line on the way north.

Saw nothing dead or alive. Started 6:30 AM.
